

Key ingredients to make the Recycling & Recovery Facilities a success

Carsten RASMUSSEN

Head of Unit DG REGIO G3 Greece and Cyprus
European Commission

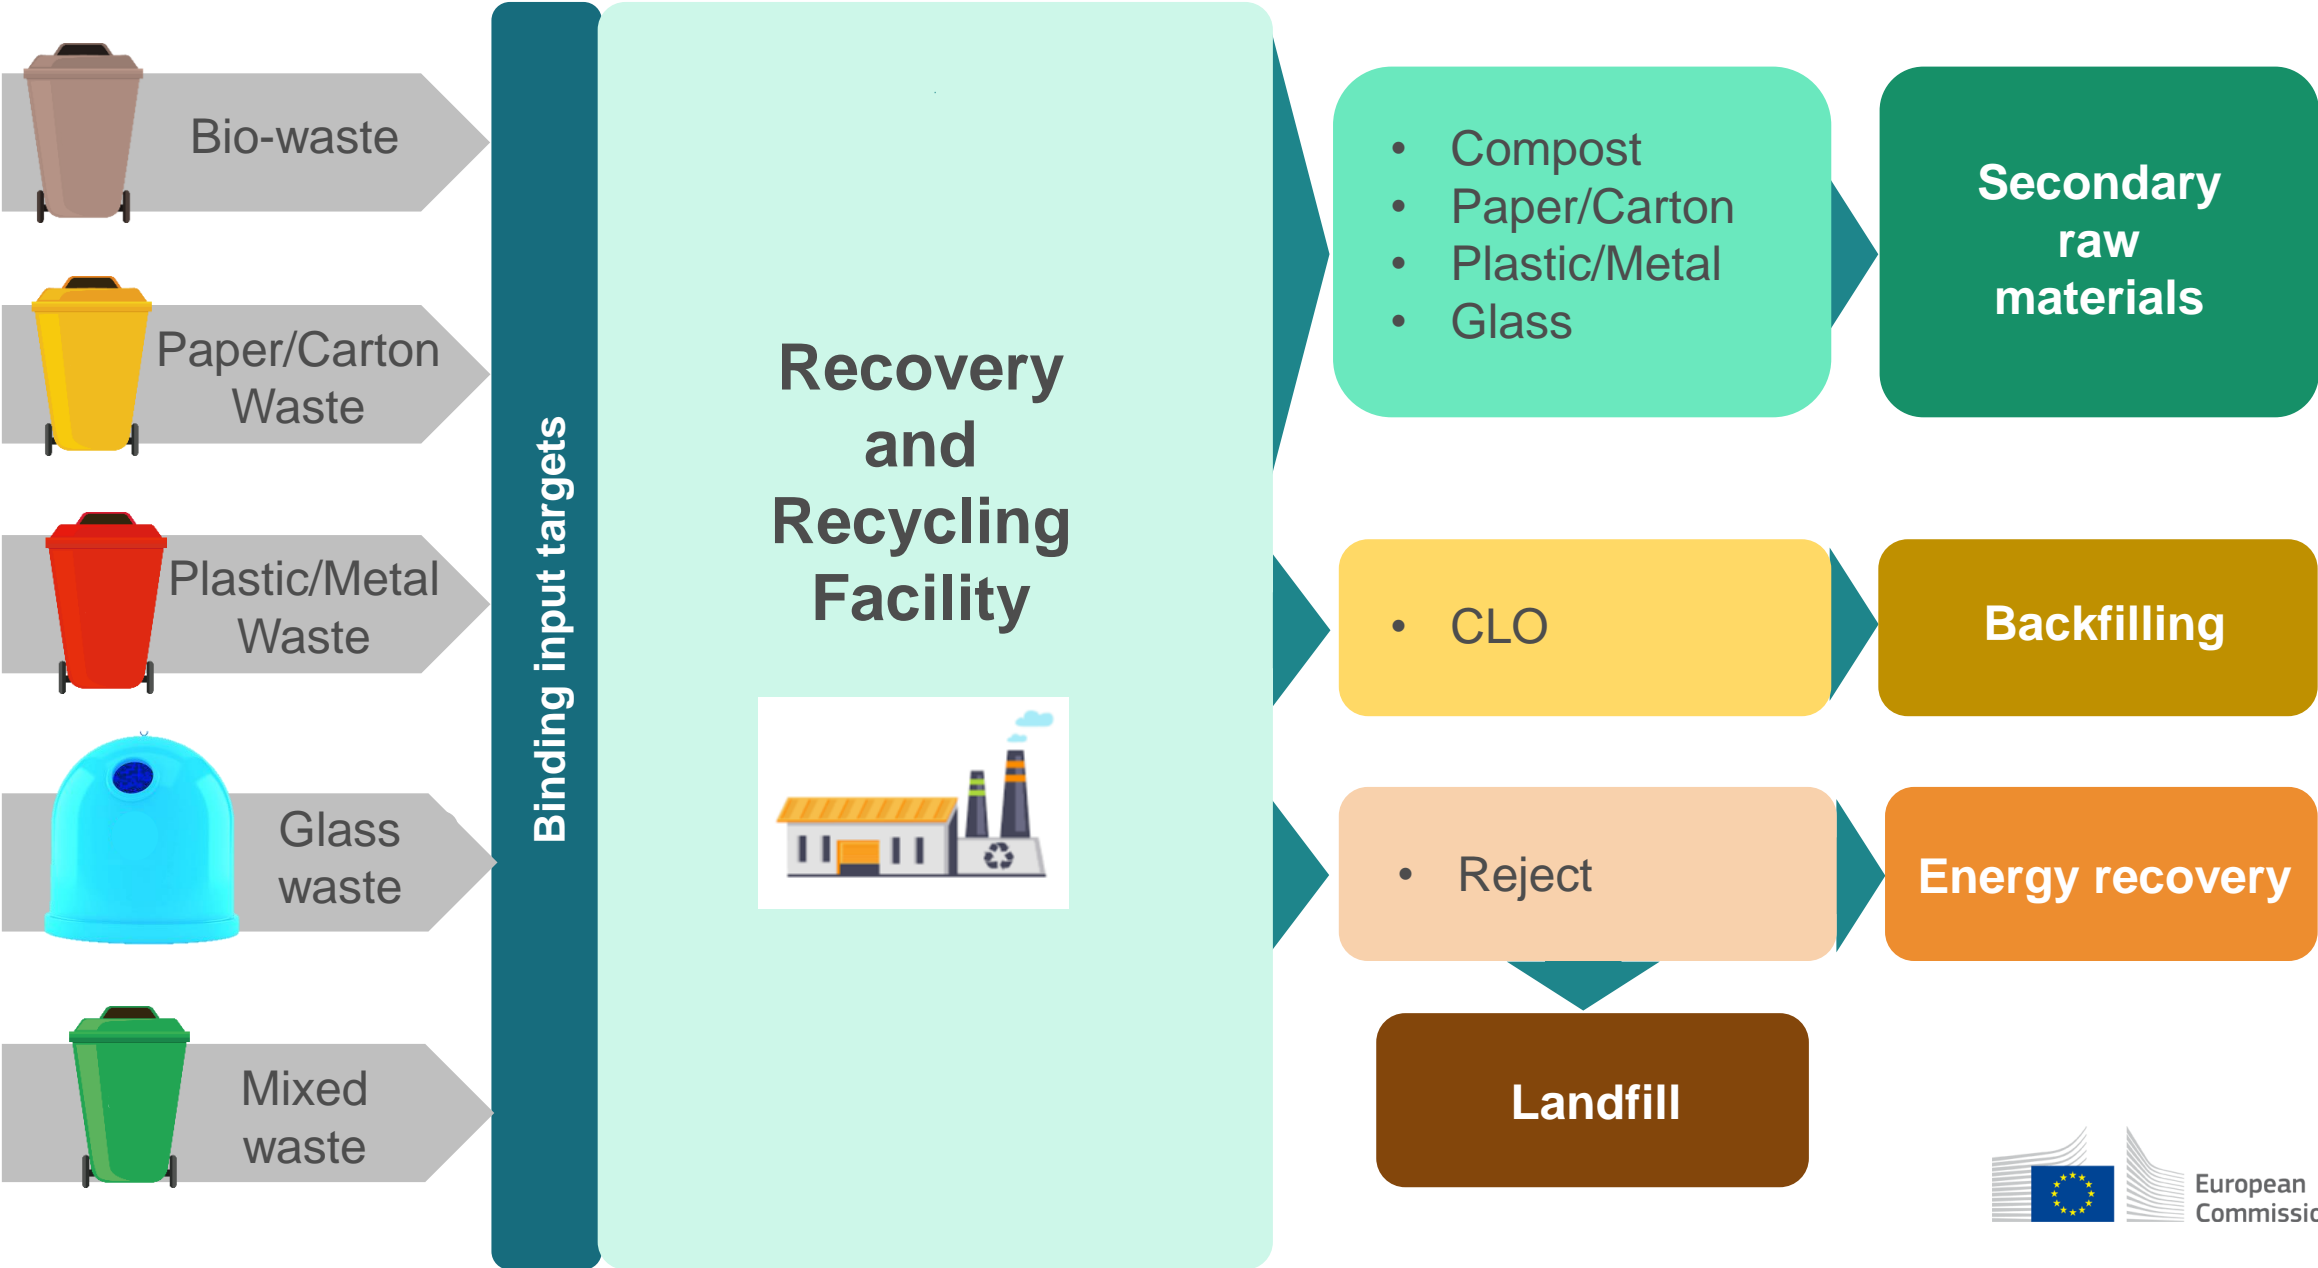

01/07/2022

Outline

1. Recycling and Recovery Facility – a new model
2. Key characteristics of the new programming period
3. Ingredients for success

1. Recycling & Recovery Facility – A new model

Recovery and Recycling Facility – A new model

Recovery and Recycling Facility – A new model

- ❖ Holistic approach (from collection to disposal)
- ❖ Separate collection key factor to increase recycling
- ❖ Separately collected waste will increase, mixed waste will decrease over time
- ❖ Investments in treatment coupled with investments in collection

Recovery and Recycling Facility – A new model

- ❖ Binding targets respected at facility level
- ❖ Landfills and incinerators ineligible
- ❖ Tariff policy to reflect the “Polluters Pay” and “Pay As You Throw” principles

2. Key characteristics of the new programming period

Key characteristics of the new programming period

- ❖ PEKA will fund holistic Recycling and Recovery Facilities (RRF)
- ❖ Conversion of conventional MBT to RRF
- ❖ Green points and Green corners under ROPs

- ❖ FODSAs to deliver integrated projects
- ❖ FODSAs to express consent on local management plans (TOSDA)
- ❖ Programming agreements between FODSAs and Municipalities

Key characteristics of the new programming period

- ❖ EUR ~30 million for Technical Assistance – TA action plan for maturity of PESDA & projects
- ❖ 1 Call for proposals per PESDA / Region
- ❖ PESDA accompanied by CBA and investment plan
- ❖ JASPERS will review PESDA and configuration of projects
- ❖ Reasonable, realistic & viable financial planning

3. Ingredients for success

Ingredients for success

Start on time

Need for realistic, simple, effective PESDA

Allocate funds to mature projects

Binding commitments

Ingredients for success

Improve planning & viability of projects

Strengthen FODSA and Municipalities

Proceed with necessary reforms

Cooperation & partnership

Concluding remarks

Ambition is set high:

- Holistic planning
- Investments in treatment and separate collection go hand in hand
- EU targets for 65% recycling, less than 10% landfilling by 2035

We stand ready to help you

Thank you!
